Note: When in section 3 a range of percentages is used, the health and environmental hazards describe the effects of the highest concentration of each component, but below the maximum value. 2.2 LABEL ELEMENTS: # This product is labelled with the signal word WARNING in accordance with Regulation (EU) No. 1272/2008~2018/1480 (CLP) Hazard H226 Flammable liquid and vapour. H373i May cause damage to organs through prolonged or repeated exposure if inhaled. H319

Caúses serious eye irritation. May cause respiratory irritation. Causes skin irritation. Harmful to aquatic life with long lasting effects.

Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Wear protective gloves, clothing and eye protection. In case of inadequate ventilation wear respiratory protection IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. Wash with plenty of soap and water. Call a POISON CENTER or doctor if you feel unwell.

Revision: 14/10/2019 Page 3/13 NEUCE CORROVEDA - Enamel for Rust Passivation Code: 0221100 O FUTURO DA TINTA **SECTION 4 : FIRST AID MEASURES** 4.1 DESCRIPTION OF FIRST-AID MEASURES: # Symptoms may occur after exposure, so that in case of direct exposure to the product, when in doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. Lifeguards should pay attention to self-protection and use the recommended protective equipment if there is a possibility of exposure. Wear protective gloves when administering first aid. Symptoms and effects, acute and delayed Description of first-aid measures Route of exposure Inhalation: # Inhalation produces irritation to mucus, coughing # Remove the patient out of the contaminated area into the and breathlessness. fresh air. If breathing is irregular or stops, administer artificial respiration. If the person is unconscious, place in appropriate recovery position. Keep the patient warm and at rest until medical attention arrives. Skin: # Skin contact causes redness. # Remove immediately contaminated clothing. Wash thoroughly the affected area with plenty of cold or lukewarm <!> water and neutral soap, or use a suitable skin cleanser. Do not use solvents or thinners. # Remove contact lenses. Rinse eyes copiously by irrigation # Contact with the eves produces redness and pain. Eyes: with plenty of clean, fresh water for at least 15 minutes, **<!**> holding the eyelids apart, until the irritation is reduced. Call a physician immediately. Ingestion: # If swallowed, may cause irritation of the mouth, # If swallowed, seek medical advice immediately and show throat and oesophagus. container or label. Do not induce vomiting, due to the risk of aspiration. Keep the patient at rest. 4.2 MOST IMPORTANT SYMPTOMS AND EFFECTS, BOTH ACUTE AND DELAYED: The main symptoms and effects are indicated in sections 4.1 and 11.1 4.3 INDICATION OF ANY IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED: Notes to physician: # Treatment should be directed at the control of symptoms and the clinical condition of the patient. Antidotes and contraindications: # Specific antidote not known. **SECTION 5 : FIRE-FIGHTING MEASURES** 5.1 EXTINGUISHING MEDIA: # Extinguishing powder or CO2. In the case of more important fires, also alcohol resistant foam and water spray/mist. SPECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE: 5.2 # Fire can produce a dense black smoke. As consequence of combustion or thermal decomposition, hazardous products may be produced: carbon monoxide, carbon dioxide. Exposure to combustion or decomposition products may be a hazard to health. 5.3 ADVICE FOR FIREFIGHTERS: Special protective equipment: # Depending on magnitude of fire, heat-proof protective clothing may be required, appropriate independent breathing apparatus, gloves, protective glasses or face masks and boots. If the fire-proof protective equipment is not available or is not being used, combat fire from a sheltered position or from a safe distance. The standard EN469 provides a basic level of protection for chemical incidents. Other recommendations: # Cool with water the tanks, cisterns or containers close to sources of heat or fire. Bear in mind the direction of the wind. Do not allow fire-fighting residue to enter drains, sewers or water courses. **SECTION 6 : ACCIDENTAL RELEASE MEASURES** 6.1 PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES: + Eliminate possible sources of ignition and when appropriate, ventilate the area. Do not smoke. Avoid direct contact with this product. ENVIRONMENTAL PRECAUTIONS: 6.2 # Avoid contamination of drains, surface or subterranean water and soil. In the case of large scale spills or when the product contaminates lakes, rivers or sewages, inform the appropriate authorities in accordance with local regulations. 6.3 METHODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP: # Contain and mop up spills with non-combustible absorbent materials (earth, sand, vermiculite, diatomaceous earth, etc..). Clean preferably with a biodegradable detergent. Avoid use of solvents. Keep the remains in a closed container. 6.4 REFERENCE TO OTHER SECTIONS: For contact information in case of emergency, see section 1. For information on safe handling, see section 7. For exposure controls and personal protection measures, see section 8. For waste disposal, follow the recommendations in section 13.

SAFETY DATA SHEET (REACH) # In accordance with Regulation (EC) No. 1907/2006 and Regulation (EU) No. 2015/830 Revision: 14/10/2019 Page 4/13 NEUCE CORROVEDA - Enamel for Rust Passivation Code: 0221100 O FUTURO DA TINTA **SECTION 7 : HANDLING AND STORAGE** PRECAUTIONS FOR SAFE HANDLING: 7.1 # Comply with the existing legislation on health and safety at work. General recommenda # Avoid any type of leakage or escape. Keep the container tightly closed. Recommendations for the prevention of fire and explosion ris # Due to its flammability, this material should only be used in areas from which all naked lights and other sources of ignition have been excluded and away from other heat or electrical sources. Switch mobile phones off and do not smoke. No tools with a potential for sparks should be used. 24* Flash point # °C 423* # °C Autoignition temperature # Recommendations for the prevention of toxicological risks # Do not eat, drink or smoke in application and drying areas. After handling, wash hands with soap and water. For exposure controls and personal protection measures, see section 8. Recommendations for the prevention of environmental contamination: # Avoid any spillage in the environment. Pay special attention to the cleaning water. In the case of accidental spillage, follow the instructions indicated in section 6. 7.2 CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES: # Forbid the entry to unauthorized persons. Keep out of reach of children. This product should be stored isolated from heat and electrical sources. Do not smoke in storage area. If possible, avoid direct contact with sunlight, Avoid extreme humidity conditions, In order to avoid leakages, the containers, after use, should be closed carefully and placed in a vertical position. For more information, see section 10. # According to current legislation. Class of storage Maximum storage period # 24. months # min: 5. °C, max: 35. °C (recommended). Temperature interval Incompatible materials # Keep away from oxidixing agents, from strongly alkaline and strongly acid materials. Type of packaging # According to current legislation. Limit quantity (Seveso III): # Directive 2012/18/EU: - Named dangerous substances/mixtures: None - Hazard categories and lower-/upperthreshold quantities in tonnes (t): • Physical hazards: Flammable liquid and vapour (P5c) (5000t/50000t). • Health hazards: Not applicable Environmental hazards: Not applicable · Other hazards: Not applicable. - Threshold quantity for the application of lower-tier requirements: 5000 tons - Threshold quantity for the application of upper-tier requirements: 50000 tons - Remarks: The qualifying quantities set out above relate to each establishment. The quantities to be considered for the application of the relevant Articles are the maximum quantities which are present or are likely to be present at any one time. Dangerous substances present at an establishment only in quantities equal to or less than 2 % of the relevant qualifying quantity shall be ignored for the purposes of calculating the total quantity present, if their location within an establishment is such that it cannot act as an initiator of a major accident elsewhere at that establishment. For more details, see note 4 of Annex I of the Seveso Directive.

NEUCE CORROVEDA - Enamel for Rust Passivation Code: 0221100 O FUTURO DA TINTA SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES 9.1 INFORMATION ON BASIC PHYSICAL AND CHEMICAL PROPERTIES: Appearance - Physical state # Liauid. - Colour # Diverse. - Odour Characteristic - Odour threshold # Not available (mixture). pH-value # Not applicable (non-aqueous media). - nH ÷ <u>Change of state</u> - Melting point # Not applicable (mixture). # °C at 760 mmHg Initial boiling point 136.2* # Density Vapour density # Not available Relative density 1.23 ± 0.1 # at 20/4°C Relative water Stability Decomposition temperature # Not available (technical impossibility to obtain the data). ÷ <u>Viscosity:</u> - Dynamic viscosity 830. 20°C CDS # Kinematic viscosity mm2/s at 40°C 230. # Viscosity (flow time) 180. ± 20. # sec.FC4 20°C # Volatility: - Evaporation rate 92.1* nBuAc=100 25°C Relative # # mmHg at 20°C kPa at 50°C 8.2* Vapour pressure # Vapour pressure 4.9* # Solubility(ies) Solubility in water: # Not miscible Liposolubility # Not available (mixture untested). Partition coefficient: n-octanol/water # Not applicable (mixture). Flammability: - Flash point 24* °C Upper/lower flammability or explosive limits # Not available Autoignition temperature 423* # °C Explosive properties: # Not available. Oxidizing properties: # Not classified as oxidizing product. *Estimated values based on the substances composing the mixture. OTHER INFORMATION: 9.2 63.3 # % Weight Solids The values indicated do not always coincide with product specifications. The data for the product specifications can be found in the corresponding technical data sheet. For additional information concerning physical and chemical properties related to safety and environment, see sections 7 and 12. SECTION 10 : STABILITY AND REACTIVITY 10.1 REACTIVITY: Corrosivity to metals: # It is not corrosive to metals. Pyrophorical properties: # It is not pyrophoric. 10.2 CHEMICAL STABILITY: # Stable under recommended storage and handling conditions. 10.3 POSSIBILITY OF HAZARDOUS REACTIONS: # Possible dangerous reaction with oxidizing agents, acids. 10.4 CONDITIONS TO AVOID: Heat: # Keep away from sources of heat. # If possible, avoid direct contact with sunlight. Light: Air: # The product is not affected by exposure to air, but should not be left the containers open. Humidity: # Avoid extreme humidity conditions. Pressure: # Not relevant. Shock: # The product is not sensitive to shocks, but as a recommendation of a general nature should be avoided bumps and rough handling to avoid dents and breakage of packaging, especially when the product is handled in large quantities, and during loading and download operations. 10.5 INCOMPATIBLE MATERIALS: # Keep away from oxidixing agents, from strongly alkaline and strongly acid materials. HAZARDOUS DECOMPOSITION PRODUCTS: 10.6 # As consequence of thermal decomposition, hazardous products may be produced: carbon monoxide.

| Danger class | Target organs | Cat. | Main effects, acute and/or delayed | Criteria |
|--|-------------------|-------|--|-------------------------------|
| Respiratory corrosion/initation | Respiratory tract | Cat.3 | <i>#</i> IRRITANT: May cause respiratory irritation. | GHS/CLP 1.2.6. 3.8.3.4. |
| Skin corrosion/irritation: | Skin | Cat.2 | # IRRITANT: Causes skin irritation. | GHS/CLP 3.2.3.3. |
| Serious eye damage/irritation: | Eyes | Cat.2 | # IRRITANT: Causes serious eye irritation. | GHS/CLP 3.3.3.3. |
| Respiratory sensitisation: Not classified | - | - | # Not classified as a product sensitising by inhalation (based on available data, the classification criteria are not met). | GHS/CLP 3.4.3.3. |
| <u>Skin sensitisation:</u> Not classified | - | - | # Not classified as a product sensitising by skin contact (based on available data, the classification criteria are not met). | GHS/CLP 3.4.3.3. |

GHS/CLP 3.2.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.3.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.4.3.3: Classification of the mixture when data are available for all components or only for some components. GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

ASPIRATION HAZARD:

| Danger class | Target organs | Cat. | Main effects, acute and/or delayed | Criteria |
|--------------------------------------|---------------|------|--|----------------------|
| Aspiration hazard: Not classified | - | | # Not classified as a product hazardous by aspiration (based on available data, the classification criteria are not met). | GHS/CLP 3.10.3.3. |

GHS/CLP 3.10.3.3: Classification of the mixture when data are available for all components or only for some components.

SPECIFIC TARGET OR GANS TOXICITY (STOT): Single exposure (SE) and/or Repeated exposure (RE):

| Effects | SE/RE | Target organs | Cat. | Main effects, acute and/or delayed | Criteria |
|----------------|-------|-------------------|-------|---|---------------------|
| Systemic: | RE | Systemic | Cat.2 | # HARMFUL: May cause damage to organs through prolonged or repeated exposure if inhaled. | GHS/CLP 3.8.3.4. |
| Respirat or y: | SE | Respiratory tract | Cat.3 | # IRRITANT: May cause respiratory irritation. | GHS/CLP 3.8.3.4. |

GHS/CLP 3.8.3.4: Classification of the mixture when data are available for all components or only for some components.

CMR EFFECTS: Carcinogenic effects: # It is not considered as a carcinogenic product. Genotoxicity: # It is not considered as a mutagenic product. Toxicity for reproduction: # Does not harm fertility. Does not harm the unborn child.

Effects via lactation: # Not classified as a hazardous product for children breast-fed.

DELAYED AND IMMEDIATE EFFECTS AS WELL AS CHRONIC EFFECTS FROM SHORT AND LONG-TERM EXPOSURE:

Routes of exposure: # Not available.

Short-term exposure: # Harmful by inhalation. Harmful in contact with skin. May irritate the eyes and skin. Irritating to skin. Long-term or repeated exposure: # Not available.

INTERACTIVE EFFECTS: # Not available.

INFORMATION A BOUT TOXICOCINETICS, METABOLISM AND DISTRIBUTION: Dermal absorption: # Not available. Basic toxicokinetics: # Not available.

ADDITIONAL INFORMATION: Not available.

NEUCE CORROVEDA - Enamel for Rust Passivation Code: 0221100 O FUTURO DA TINTA RESULTS OF IBT AND VPVB ASSESMENT: 12.5 Annex XIII of Regulation (EC) no. 1907/2006: # Does not contain substances that fulfil the PBT/vPvB criteria. OTHER ADVERSE EFFECTS: 12.6 Ozone depletion potential: # Not available. Photochemical ozone creation potential: # Not available. Earth global warming potential: # In case of fire or incineration liberates CO2. Endocrine disrupting potential: # Not available. SECTION 13 : DISPOSAL CONSIDERATIONS WASTE TREATMENT METHODS: # Directive 2008/98/EC~Regulation (EU) no. 1357/2014: 13.1 # Take all necessary measures to prevent the production of waste whenever possible. Analyse possible methods for revaluation or recycling. Do not discharge into drains or the environment, dispose at an authorised waste collection point. Waste should be handled and disposed in accordance with current local and national regulations. For exposure controls and personal protection measures, see section 8. Disposal of empty containers: # Directive 94/62/EC~2015/720/EU, Decision 2000/532/EC~2014/955/EU: # Emptied containers and packaging should be disposed in accordance with currently local and national regulations. The classification of packaging as hazardous waste will depend on the degree of empting of the same, being the holder of the residue responsible for their classification, in accordance with Chapter 15 01 of Decision 2000/532/EC, and forwarding to the appropriate final destination. With contaminated containers and packaging, adopt the same measures as for the product in itself. Procedures for neutralising or destroying the product: # Controlled incineration in special facilities for chemical waste, in accordance with local regulations. **SECTION 14 : TRANSPORT INFORMATION** UN NUMBER: 1263 14.1 14.2 JN PROPER SHIPPING NAME: PAINT TRANSPORT HAZARD CLASS(ES): 14.3 Transport by road (ADR 2019) and Transport by rail (RID 2019): Class: 3 III - Packing group: Classification code: F1 Tunnel restriction code: (D/E) 3, max.
